

The South Downs National Park Authority (SDNPA) Statement – In response to the article in the Liphook Herald

The South Downs National Park Authority (SDNPA) supports all local communities that are interested in preparing a Neighbourhood Development Plan (NDP) in the National Park. This includes the Parish of Bramshott & Liphook.

Their Call for Sites will provide valuable evidence for their NDP. It will cover all of the Parish, both inside and outside the South Downs National Park.

Any sites within the National Park would need to be assessed in regard to landscape and other matters relating to the National Park's statutory purposes, including biodiversity and cultural heritage.

Any site in the National Park that was considered to form major development would be contrary to both national and local policy.
